

Master “Interdisciplinary Neuroscience”

Lecture “Neuroscience II – selected topics ” SS 2022

Wednesday, 08:15

Campus Niederrad, “Medicum”, Building 10A, room S10-11

Date	Lecturer	Topic
13.04.22	Dr. Alexander Bird	Computational Neuroscience
20.04.22	Prof. Dr. Alexander Gottschalk	Optogenetic methods in Neuroscience
27.04.22 - zoom -	Prof. Dr. Ralf Deichmann	Functional NMR
04.05.22	Prof. Dr. Ellen Niederberger	Physiology and pathology of pain
11.05.22	Prof. Dr. Jochen Kaiser	Neuroimaging of attention and working memory
18.05.22	Prof. Dr. Christian Fiebach	Prefrontal Cortex and Executive Control
25.05.22	Prof. Dr. Andreas Chiocchetti	Genetic factors in neuropsychiatric diseases
01.06.22	Prof. Dr. Uwe Baumann	Auditory neuroimplants
08.06.22	PD Dr. Stefan Liebner	The neurovascular Interface in health and disease
15.06.22	Dr. Sevil Duvarci	Neural basis of learning and memory formation
22.06.22	Prof. Dr. Matthias Kieslich	Neurological development in the first year of life
29.06.22	Prof. Dr. David Slattery	Translational approaches for studying psychiatric disorders
06.07.22	PD Dr. Christian Kell	Speech and Language in Physiology and Pathology
13.07.22	Dr. David Prvulovic	Clinical neuroscience of neurodegenerative diseases

Exam: July 21, 2022 // 10:00 // Campus Riedberg, Biologicum, room -1.203, lecture hall 2
Redo-Exam: October 5, 2022// 10:00 // Biologicum, room 3.101 (Prof. Kössl's group)
