

Lecture “Neuroscience II – selected topics ” SS 2019

Wednesday, 08:30 – 10:00

Campus Niederrad
Bibliothek Neurochirurgie, building 95, basement, room A 022
or
Neuroscience Center “Blauer Turm”, seminar room

Date	Lecturer	Topic
17.04.19 Neuroscience Center	Dr. Alexander Bird	Computational Neuroscience
24.04.19 Neurochirurgie	Prof. Dr. Alexander Gottschalk	Optogenetic methods in Neuroscience
Tue (!) 30.04.19 Neurochirurgie	Prof. Dr. Ralf Deichmann	Functional NMR
08.05.19 Neurochirurgie	Prof. Dr. Ellen Niederberger	Physiology and pathology of pain
15.05.19 Neurochirurgie	Prof. Dr. Jochen Kaiser	Neuroimaging of attention and working memory
22.05.19 Neurochirurgie	Prof. Dr. Christian Fiebach	Prefrontal Cortex and Executive Control
29.05.19 Neurochirurgie	PD Dr. Christian Kell	Speech and Language in Physiology and Pathology
05.06.19 Neurochirurgie	PD Dr. Stefan Liebner	The neurovascular Interface in health and disease
12.06.19 Neurochirurgie	Prof. Dr. Matthias Kieslich	Neurological development in the first year of life
19.06.19 Neurochirurgie	Dr. Sevil Duvarci	Neural basis of learning and memory formation
26.06.19 Neuroscience Center	Prof. Dr. David Slattery	Translational approaches for studying psychiatric disorders
03.07.19 Neurochirurgie	Prof. Dr. Uwe Baumann	Auditory neuroimplants
10.07.19 Neurochirurgie	Prof. Dr. Georg Auburger	Molecular basis of neurodegeneration and ageing
17.07.19 Neuroscience Center	Dr. David Prvulovic	Clinical neuroscience of neurodegenerative diseases

Exam: Friday, July 26, 2019; 10:00; Campus Riedberg, Biologicum, Lecture Hall 2
Redo-Exam: TBA
