

**Lecture “Neuroscience II – selected topics ”
SS 2018**

Wednesday, 08:15– 10:00

Campus Niederrad, Neuroscience Center “Blauer Turm”, seminar room

Date	Lecturer	Topic
11.04.18	Prof. Dr. Alexander Gottschalk	Optogenetic methods in Neuroscience
18.04.18	Prof. Dr. Ralf Deichmann	Functional NMR
25.04.18	Prof. Dr. Ellen Niederberger	Physiology and pathology of pain
02.05.18	Prof. Dr. Jochen Kaiser	Neuroimaging of attention and working memory
09.05.18	Prof. Dr. Christian Fiebach	Prefrontal Cortex and Executive Control
16.05.18	Prof. Dr. Matthias Kieslich	Neurological development in the first year of life
23.05.18	PD Dr. Christian Kell	Speech and Language in Physiology and Pathology
30.05.18	PD Dr. Stefan Liebner	The neurovascular Interface in health and disease
06.06.18	Prof. Dr. David Slattery	Translational approaches for studying psychiatric disorders
13.06.18	Prof. Dr. Uwe Baumann	Auditory neuroimplants
20.06.18	Prof. Dr. Georg Auburger	Molecular basis of neurodegeneration and ageing
27.06.18	Dr. David Prvulovic	Clinical neuroscience of neurodegenerative diseases
04.07.18	Dr. Torfi Sigurdsson	Neural mechanisms of working memory
11.07.18	Dr. Alexander Bird	Computational Neuroscience

***Exam: Friday, July 27, 2018; 10:00; Campus Riedberg, Biologicum, Lecture Hall 2
Redo-Exam: TBA***
